

HANS ROH

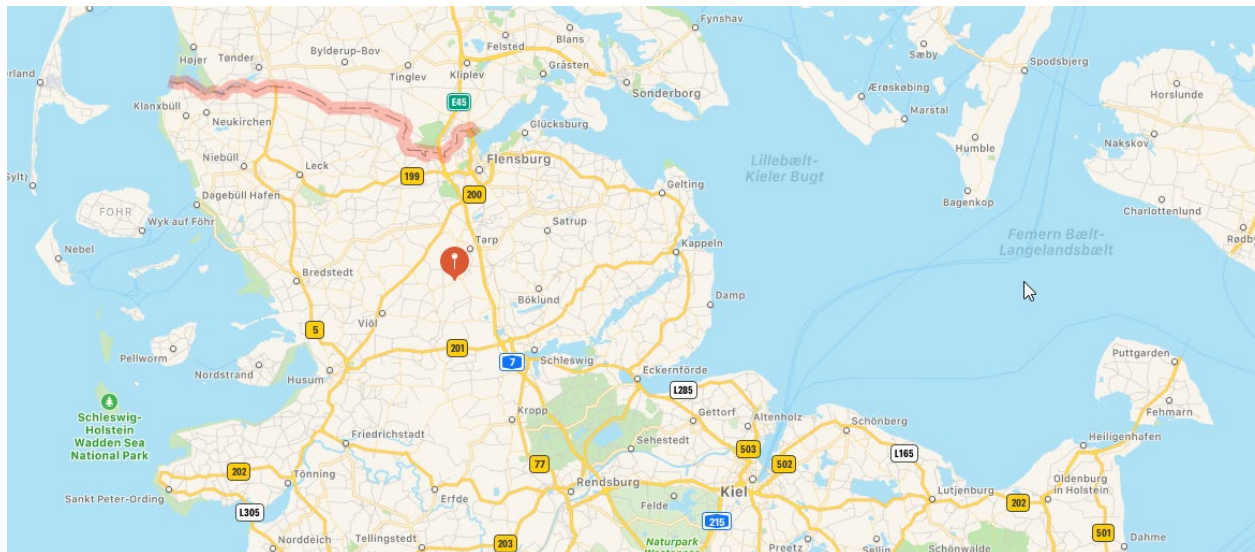

Hans Roh was born on October 19, 1805 in Eggebek, Schleswig-Holstein, Germany to Peter Roh and Helena Matthiesen.

On Dec 23, 1842 Hans married Catharina Kundt in Eggebek, Schleswig-Holstein, Germany.

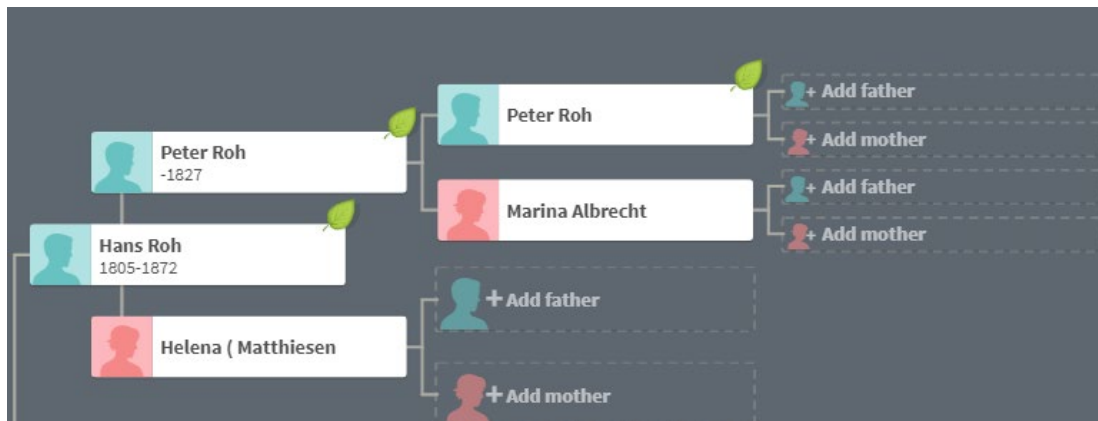

Hans died on June 23, 1872 in Eggebek, Schleswig-Holstein, Germany.

I hired a professional researcher to see what we could find on the Roh family and while I don't have the full family information for each family, I do have some great information tracing the line as far back as we could go without very detailed online research or in person research.

The interesting part of this research is that the area the Roh family is from was at times part of Denmark and thus they are part of the Denmark census. The red pin in the map represents Eggebek where Hans was born.

Hans Roh Family Ancestry

CATHRINA KUNDT

Cathrina Kundt was born on August 26, 1793 likely in the area of Esperstoft, Schleswig-Holstein, Germany to Heinrich Knudt and Christina Carstens (or Carstensen). This is very close to Eggebek and is within about 5 miles.

Cathrina died on March 29, 1892 in Esperstoft, Schleswig-Holsetein, Germany. The church records are so detailed that her record lists out Magdalena Kallsen in America as one of her children. Very few of the records that have been found have been that detailed – what a find!

A fair bit of online research has been done on the family and we have reached a point where more detailed research or in person research is needed to further the available information.
